To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

SKILLS

- HTML
- CSS
- JAVASCRIPT
- BOOTSTRAP
- jQUERY
- REACTJS
- GIT
- SQL(BASICS)

PROJECTS

BILLING SYSTEM FOR DEPARTMENT STORES (UG)

This Project is simple in design and crucial to implement. This project requires very low resources. The system will work in almost all the configurations. It has got following features.

- Ensure data accuracy's.
- Better service.
- Detailed receipts.
- Expanded payment capabilities.

SOFTWARE PIRACY PROTECTION (PG)

This Project is very practical and advance. The user has to book the software through online by providing his MAC-ID. Then admin is to generate an key for that particular product based on the MAC-ID. Once key is generated then admin delivers to user. Then user can access the product by providing this Id as a password.

- This system is useful in making revenues
- No one can copy the software or share as it requires an activation code that is different for each individual.
- Highly robust and secure system

EDUCATION

M.SC COMPUTER SCIENCE

Kongunadu Arts and Science College
